Healthcare: Vote for Your Family’s Health

Under Christy Clark and the BC Liberals:

- Healthcare workers have been under attack. While healthcare workers struggle to continue to provide the best possible care with declining resources, they and their patients are put at risk.
- Healthcare jobs are becoming more precarious than ever, with increasing rates of contracting out.
- 9 out of 10 seniors living in long-term care are in facilities that are not adequately resourced.
- Emergency rooms are overflowing, and some mothers are unable to deliver in their home communities due to lack of staff and other resources in hospitals.
- People aren’t getting the care they need, while Christy Clark and the BC Liberals have given tax cuts to their corporate and rich friends.

John Horgan and the NDP government will:

- Eliminate MSP premiums so that all British Columbians have access to the health care that they need.
- Increase the time home-care workers can spend with seniors, so seniors can stay in their own homes longer.
- Increase access to doctors, nurses and health practitioners in your community.
- Relieve the pressure on emergency rooms and reduce wait times.
- Provide faster access to mental health services, when and where people need it.
